

# THE Goldenomega.net DIFFERENCE

**YOUR COMPANY IS YOUR LIVELIHOOD. HOW CAN YOU MAKE SURE YOU HAVE THE BEST SOFTWARE PARTNER?**

**WE CAN HELP. ASK ABOUT OUR BAILOUT PROGRAM FROM CERTAIN VENDORS.**

**Renew With Us!**

- You thought you had selected the best software in the market at that time; paid a hefty price for automation of its era but found out that the software vendor's reputation, support and software were really overstated, as you started using the system.
- Your company grew in size with more loans in your portfolio and you are well established. Technology changed and now users can take advantage of it by working remotely at home, or while on vacation in Europe. But you get to find out that your software vendor does not really allow any remote access for running the software. The prohibition comes with a penalty in the thousands of dollars. What do you do?

Goldenomega.net can help you.

*Call us for details!*

- We offer data conversions from certain vendors with the entire loan and lender history, plus trust accounting transactions all imported into our i-Servicing, loan servicing module. You don't even have to open a new bank account but you should order new checks compatible with our software.
- Our personal attention given to each and every customer makes our Customer Service and Technical Support departments unparalleled. Our programmers' skills and dedication to perfection in software development create mortgage software to be used not only on your local computer or Local Area Network, but remotely via VPN, or on a Terminal Server, Thin Client, CITRIX environment or on your iPod, while on the road!

## OUR HISTORY

GoldenOmega was established in January 1988 out of the need to provide the mortgage industry and specifically the California mortgage brokers, licensed by the Department of Real Estate, who arranged loans for borrowers and private investors, with trust accounting software. The company was the pioneer in trust accounting software that complied with the California DRE regulations and continues to this date providing the lending industry with innovative software features at affordable prices.

Goldenomega.net has expanded its mortgage software modules and territory from California to all 50 States. In addition, software for the mechanic's lien process is offered to all in the construction industry for all 50 US States and Canada with thousands of users on board.

## FREQUENTLY ASKED QUESTIONS

**Q** Is your software in Windows, PC based or Web based?

**A** All of our software modules are Windows PC based programs that are installed at your own office computers and servers with you hosting your own data; not us!

**Q** Do you have in-house customer service and technical support personnel?

**A** Yes, our office hours are M-F, 8:00 a.m. to 5:00 p.m. PST. Late phone and web appointments are available. East Coast customers also have emergency phone support.

**Q** Do you have in-house programmers or do you out-source software development?

**A** Our programmers work full time with a lot of overtime to provide customers with new or improved software features, customized solutions and perform data conversions from other vendors' software at our office.

**Q** Do you provide software updates due to changes in the law by their effective date?

**A** We understand how important compliance is for our customers' livelihood. Software updates are released within a timely fashion in general.
