i-WebPub™ Features and Benefits

- Your customer accesses your own website, not one of ours.
- Your customer knows, sees and feels he/she is at your site and not your software vendor's central website for all other customers.
- Your web page for your customers is hosted by the same Internet Service Provider (ISP) you are using for your own website.
- It may or may not require increase in website size capacity to host additional data from i-Servicing and/or i-Pools.
- Customer logins have a unique user defined PIN embedded in the clients' profile in i-Servicing and/or i-Pools, as shown above.
