Windows® Software for Trust Accounting

- i-Trust™ is a trust fund handling software application in Windows®.
- It offers full automation and flexibility, with complete record keeping.
- It maintains a strict audit trail of all funds.
- i-Trust™ allows unlimited subsidiary ledgers of client accounts kept within the trust account, providing separate balances for each subsidiary account.
- The program works with an unlimited number of transactions and open history.
- i-Trust™ provides the State of California's required forms for quarterly Trust Fund Status reports and annual CPA review statements.

i-Trust™ Features and Benefits

- Easy bank account reconciliation.
- Ability to print individual checks, process credits, debits, deposits.
- Simplify paying a multi-item vendor statement by using one check per vendor and utilizing the multi-invoice option with the automatic debiting of specific client accounts.
- Ability to enter and post a manually written check without needing to reprint another check.
- Verify input accuracy prior to posting by printing a Transaction Listing report of all entries made.
